Khai (Daniel) Tran

Motion Designer & Video Editor | Built a 4-person creative studio from scratch as founding hire | Open to Full-time
Ho Chi Minh City Metropolitan Area

Summary

I joined The Umdenken, an Australian Edtech startup, as its founding creative hire in Vietnam. There was no studio: no pipeline, no file system, no process. I built post-production from zero — then grew it into a 4-person Creative Studio and led it, mentoring the team while staying hands-on as lead video engineer on the hardest deliverables. Before that, 3.5 years at Shuttlerock, an international production house, producing short-form ads and HTML5 banners at volume — where I learned to hit brand guidelines and platform specs consistently, on deadline, at scale. That's the combination I bring in-house: the craft to make the work, and the systems thinking to make it repeatable after I've made it once. Tools: After Effects, Premiere Pro, Photoshop, Blender. Currently building AI into my production workflow. Looking for a full-time in-house or product role — remote or Ho Chi Minh City. daniel.biz0395@gmail.com

Experience

Upwork

Senior Motion Graphics Designer & Video Editor
January 2023 - Present (3 years 7 months)
Ho Chi Minh City Metropolitan Area

Collaborated with global clients on diverse freelance projects outside full-time hours, delivering high-quality motion design tailored to international standards. 100% Job Success Rate across all projects — 2D animation, explainer videos, and social ads for international clients.

The Umdenken

1 year 4 months

Creative Studio Team Leader
June 2026 - July 2026 (2 months)
Ho Chi Minh City Metropolitan Area

- Managing a team of 4 people including: Associate Video Engineer, Graphic Designer, Video Engineer.

- Built the studio's asset & file system from scratch — cut asset retrieval time and enabled 4-person team to reuse project files across campaigns.
- Core Technical Execution: Acted as lead video engineer while managing the team — still hands-on for the studio's most complex deliverables.
- Team Mentorship & Creative Support: Provided dedicated technical guidance and creative ideation support to team members, fostering a collaborative environment to elevate overall output quality.
- Progress Tracking & Reporting: Consistently monitored and updated project milestones, proactively identifying bottlenecks and delivering strategic solutions to stakeholders.
- Workflow Optimization: Wrote the studio's production workflow into the company's official SOP — the foundation used to onboard and train every new Video Engineer. Spearheaded continuous improvements in studio workflows, enhancing production efficiency and team collaboration.

Video Engineer - Motion Graphic Designer

April 2025 - June 2026 (1 year 3 months)

Ho Chi Minh City Metropolitan Area

- Founding creative hire for the company's Vietnam studio — built the post-production pipeline from zero, then grew it into a 4-person team.
- Chroma Keying & Footage Cleanup: Expertly processed raw green screen footage, executing precise keying, bad-take filtering, and dynamic multi-take editing.
- Visual Enhancement: Performed high-end skin retouching, color correction, and color grading to ensure a polished, professional, and consistent cinematic look.
- Motion Graphics Integration: Designed and integrated engaging motion graphics, text animations, and visual assets to elevate story progression.
- Audio Design: Managed audio post-production, seamlessly blending background music and sound effects (SFX) to deliver an immersive auditory experience.
- Quality Control: Handled the entire post-production pipeline from technical ingestion to final high-quality video exports, maintaining rigorous standards for every deliverable.

Shuttlerock

Motion Graphic Designer

October 2020 - May 2024 (3 years 8 months)

- Short-Form Video Production: Conceptualized and produced high-engaging, fast-paced short-form video ads tailored for social platforms including TikTok, Reels, Shorts, and Facebook.
- Interactive HTML Banners: Designed and animated dynamic, interactive HTML5 web banners optimized for digital marketing campaigns and display networks.
- 3D Modeling & Animation: Integrated basic 3D assets and modeling into motion workflows to add depth and modern visual appeal to creative deliverables.
- Platform Optimization: Adapted and optimized creative assets across multiple aspect ratios and specifications, ensuring maximum visual impact for platform-specific audiences.
- Brand Alignment: Collaborated closely with creative briefs to translate brand guidelines into high-performing digital ad formats.
